

## **Symphony of the Sea**

As creation trumpets its arrival

The Maestro raises his moon baton

And the symphony of the sea begins!

The ocean mix becomes a delightful kaleidoscope--  
sound, rhythm and color.

Ballerina breakers leap to a crystal crescendo

Before bursting upon the beach.

Waltzing waves accompany the swinging swells leaning seaward,  
and the blues movement sways to and fro.

Singing streamlets run down the sand to join the reoccurring theme.

The sea spray harmonizes with the sunshine

Creating a jeweled, but resting rainbow.

Eons and humans pass and the musical magic of the sea continues  
in the never-ending symphony of a million movements.
